GEA acquires CMT

The constellations are changing, but not our products and services.
We are still your competent partner for mozzarella and pizza cheese plants in all performance levels.

Our well-known and highly motivated team will assist you in your planning for new plants and expansions as well as in the service and the range of spare parts.

Our core products in the field of cheese production are machines and equipment for mozzarella, pizza cheese, hard cheese, semi-hard cheese and cream cheese. We are constantly expanding this range with innovative solutions and new products.
